As an undergraduate student in informatics, I envisioned exciting business prospects that could stem from my educational background. Alongside my academic activities, I have gained practical experience in various fields, including software development, technology project management, application development, and design graphics. These experiences have enhanced my abilities in problem-solving, programming, and teamwork, making me versatile and adaptable to diverse work environments.

EDUCATION

Universitas Teknologi Yogyakarta | Bachelor of Informatics Yogyakarta | 2021-2025 (Expected)

Related Course

Design Thinking, Web-based Application Development, Mobile Application Development, Frontend and Backend Development using Express JS and Next JS (Present)
